DETAILED ACTION

The amendment filed on September 1, 2005 has been entered. Claims 1-5 are cancelled, and claims 6-10 are pending.

The indicated allowability of claims 6-10 is withdrawn in view of the newly discovered reference(s) to Toyama et al and Parker. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6-7 and 9-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Toyama et al (Figures 3 and 5-6). Regarding claims 9-10, the method limitations in an apparatus claim bear no patentable weight in this instance. See MPEP 2113.

Claims 6-7 and 9-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Parker (Figure 4). Regarding claims 9-10, the method limitations in an apparatus claim bear no patentable weight in this instance. See MPEP 2113.

Allowable Subject Matter

Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
